EXPERIENCE - PROJECTS

Bookworm

April 2024

Engineered a comprehensive full-stack platform that revolutionizes how users discover, share, and engage with books. Features robust user authentication and interactive functionalities using Node.js, Express.js, Sequelize, and Handlebars.js.

Event Space

February 2024

Developed a dynamic web application that serves as a global hub for event discovery. Utilizing HTML, CSS, and JavaScript, this project simplifies the process of finding and engaging with events, enhancing the user experience for party enthusiasts worldwide..

EDUCATION

Columbia Engineering Bootcamp, New York, NY — Full Stack Web Development

December 2023 - Present

Currently advancing my software development expertise, mastering technologies such as JavaScript, React, and Node.js in a focused, intensive program scheduled to conclude by June 3, 2024.

SUNY Westchester Community College, Valhalla, NY — Associate in Science, Mathematics and Science Liberal Arts

August 2021 - May 2023

Currently pursuing a rigorous curriculum in mathematics and science, preparing for a technical career by enhancing analytical and problem-solving skills.

Universiteti i Arteve, Tirana, Albania — Advanced Studies in Music Performance

September 2018 - June 2020

Focused on advanced clarinet performance, honing skills for professional level music careers.

ABOUT ME

Innovative full-stack web developer with a background in music, currently honing my skills at Columbia Engineering Bootcamp. Proficient in JavaScript, React, and Node.js, I excel in proactive leadership, clear communication, and meeting challenges head-on. My technical expertise and creative approach make me a valuable asset to any development team.

SKILLS

Proficient in JavaScript, HTML5, CSS3.

Experienced with React, jQuery, APIs, AJAX, JSON, Bootstrap.

Back-end development with Node.js, Express, and Sequelize.

Database management using MongoDB, MySQL, and NoSQL.

Deployment and version control using GitHub Pages, Heroku, Netlify, and Git.
